PUBLISHED BY SMITH & SAYWARD, OVER THE POST OFFICE, WEST MARKET PLACE, BANGOR, ME.

VOL. VIII.

SATURDAY, SEPTEMBER 4, 1841.

NO. 56.

Keep it before the People

That the first steps of the present administration of Gov. KENT, will introduce the expenses of the Government, the Civil Posse, &c., and to apply for the rightful aid of Massachusetts and of the National Government, to relieve the State from the expenses of maintaining the jurisdiction of Maine over the disputed territory.

Spread the Good News,

That in answer to these strenuous efforts of our patriotic Governor, Massachusetts has agreed to pay one half of the expenses, and the United States Government has taken hold in earnest and sent regular troops at her expense upon the

Disputed Territory!

and thereby assumed the expenses and responsibility of defending the rights of Maine, and taken a decisive step to forward the good cause, and plant

The National Standard, for the first time upon the soil which British claims and Loco-foco imbecility have so long made a bone of contention.

Keep the point in mind,

That the question of jurisdiction is now made truly a national matter, and if the Provincials interfere they must deal with officers bearing the commission, and representing the U. States.

The settlers can feel safe

Under the ample folds of the United States flag, and encouraged to go ahead and clear their farms, and build themselves independent homes.

The Backwoodsmen know

That good roads always follow the establishment of regular troops, and that a good market can be found at their doors.

Keep it before the People,

That if we want our State taxes doubled from \$200,000 to 400,000, or even more, we had better put the old squad of plunderers into power again and elect John Fairfield to employ men at ten dollars a day, and pay Adjutant Generals at the rate of nearly five thousand dollars a year.

Freemen should not forget

That vigilance is the price of liberty, and if they do not wish a retrograde movement, and the benefits of the late political victory lost, they must work in the political vineyard, must vote themselves and get their neighbors to vote for EDWARD KENT and the Democratic Whig Ticket.

Warn the Committees

To be active, faithful, persevering, unflinching.

One Fire more

and Loco-focoism will be among the things lost on earth, and our Republican institutions will be safe, and the people prosperous!

Make Preparation!

Get all things ready, be sure you are right, go ahead and

All will be Well!

WHIGS, AWAKE!

The **Wolf of Loco-focoism is on the Walk**, ready to take every possible advantage in the approaching contest. The **opposition leaders** despise the **Voice of the People**, so emphatically expressed in 1840, when by its all conquering power it triumphed over the **leeches of the People's Treasury**, and they mean, if possible, to triumph over the **Real Democracy** of the State by **Imposition**, loud clamor and **hard work**. The **Democracy of the Country** have spoken like **Free-men**. They must rally once more and the country will be **Redeemed, Regenerated, and Disenthralled** from all factious opposition, that would fair **Rule of Kulu**.

The great interests of the country, the **strong levers of the People's Prosperity** are in a fair way of adjustment, and the **glorious benefits** of our **Republican Institutions** are again to be realized. Prepare for another victory, and make the knees of the **Loco-foco shazzas** again shake, and all will be well. Time, Faith, Union, Perseverance on the part of the Democratic Whigs is essential to the best good of the country and of Maine.

\$1526,87

in favor of one of their partisans, and against the State.

That Gov. Fairfield and his Council in settling the accounts of the Land Agent made 99 errors, amounting to the sum of

allow the payment of 217 bills without vouchers.

Rouse up, friends, for an insidious **FOE** is active to overthrow your hopes and defeat the **will of the People**. A short time and it will be too late for preparation. Make all things ready now!

Locofoco Imposition.

The loco papers in Maine keep up the cry that the Whigs in Congress are striving to increase the duties on Sugar, Molasses and Salt. This is **false**.— The Revenue Bill now before Congress promises to **reduce the duties on Sugar, Molasses and Salt**.— These necessities of life are not to pay so much duty as they have for a number of years been doing. This is the manner in which **political demagogues** strive to cheat the people. The **intelligent people** cannot be humbugged quite so easy.

WINCING OF THE LOCOS UNDER THE WHIG RESOLVES.

The last Democrat has a mortal column devoted to the resolutions passed at the Whig Convention held at Orono. The gallant jade winces terribly under them. The Democrat tries to get rid of them in the lump, by denouncing them as lies, falsehoods, &c. its usual arguments. In reference to the resolution which stated that there were 97 blunders in the accounts of the Land Agent as settled by the late Governor and Council, and 150 charges paid by the State without vouchers, it says:

"This is unequivocally false, known to be so by many who gave their sanction to the bold lie. There are vouchers in the Land Office for all the money paid out, to be sure there are not receipts from all persons to whom money was paid, for the **SATISFACTORY REASON** that those persons were **FRUNKERS** who worked on the roads and **CANNOT READ OR WRITE**, and that **books** show all about it, and so does Mr. McIntire's statement in the published report. There is the same **BASE LYING** about the alleged 'blunders or mistakes.'

This is what **call talk** talking. It is giving the lie a little too direct for courtesy's sake, and for the reputation of a conductor of that print, as we shall immediately show.

Here is a list of some of the **FRENCH MEN** WHO WORKED ON THE ROADS AND CANNOT READ OR WRITE!! with the sum paid them:

Thomas Bartlett,	1226 29
Thomas Bartlett, Jr.	844 22
Nathan Stanley,	159 13
Elisha Towle,	318 00
Arnold & Whitecomb,	121 50
Cyrus Colburn,	242 72
Bradley & Thomas,	240 00
Scott & Hawks,	160 00
James Nichols,	200 00
Morris & Benjamin,	130 00
Lewis Johnson,	266 03
Ivory Hardison,	100 00
Daniel Fenlon,	105 50
Ebenezer Esty,	125 00
Currier Churchill & Erskine,	25 00
Wm. C. Ellerbrown,	94 94
Wm. B. Carr,	57 34

Mr. McIntire in his "statement" does not attempt to give any reason why no vouchers were taken from the above persons, except in the cases of the Messrs. Bartlett, Towle and Stanley. In all the other cases no explanation was attempted. Instead of there being 150 charges paid without vouchers, as was stated in round numbers, there were 217! The following is from Mr. McIntire's statement which has been referred to. He says: "The numerous errors suggested in the bills have been re-examined and many of them found to be so, the result of which is exhibited in the schedule. The balance of errors is but small considering the number, and I therefore make no further remark in regard to them!" The schedule to which Mr. McIntire refers we have examined, and it contains 99 instead of 67 errors as stated in the resolve. The **Democrat** says, that nothing was lost or gained by these blunders, that it cost more to print Mr. Hamlin's Report than the whole balance of errors in favor of the State.

This kind of logic and economy, in not hunting up offenders unless they have taken a good round sum, we cannot agree to. It cannot exonerate those engaged in the management of the **People's Treasury**, and they

mean, if possible, to triumph over the **Real Democracy** of the State by **Imposition**, loud clamor and **hard work**.

The **Democracy of the Country** have spoken like **Free-men**. They must rally once more and the country will be **Redeemed, Regenerated, and Disenthralled** from all factious opposition, that would fair **Rule of Kulu**.

The errors against the State, detected on a revision of the accounts, amounted to the pretty sum of \$1526 87, to adjust which, Mr. Molson promptly paid into the Treasury \$650, and hopes upon a further revision of his accounts to find some errors in his favor which will relieve him from paying any more. To be hunting up and correcting such trifling errors as fifteen hundred dollars is considered by the loco as very small business. Such trifles were too insignificant to claim the attention of those who did their business on a grand scale! But the people **must** be enlightened to pay for these blunders, very possibly—think of some little consequence to them.

The **Democrat** states, that the State never lost a dollar by Mr. McIntire. In reply we will state one fact. In the spring of 1839, the Quartermaster's department turned over to the Land Agent various articles of military stores, sub-totalling &c. to the amount of \$14,604 07 and when McIntire turned over the public property to the present Land Agent, he accounted for only \$2,937 64. What became of the balance \$11,666 43 we are not informed, and probably no one but Mr. McIntire and his sub-agents know. It was never received by the State.

The resolutions relative to McLeod, causes our available neighbor to flate up "pretty considerably." Now every one knows that the last administration stood by with folded arms for three years, over the **blundering** of the **Loco** without moving a finger in the matter. But when the British government demanded McLeod of the present administration, the reply was, that the prisoner, if guilty, must answer for his crimes to the laws of the State against which they were committed, while it demanded, in **preemptory** terms, of the British Government, full satisfaction for the outrages which, as a nation, it had committed.

Health and Strength!

DR. S. O. RICHARDSON'S **SHERRY WINE BITTERS**.

ARE the only sure remedy for Dyspepsia and Jejunea that has ever been discovered, and their general use for 32 years, with commendations from the most eminent of the medical faculty, and editorial notices from the Boston Morning Post, Boston Daily Mail, Plymouth Monitor, Amoskeag Representative, Barnstable Patriot, Essex Journal, Haverhill Gazette, Lowell Patriotic, Bunker Hill Aurora, Charlestown, Portsmouth Gazette, N. H., Dover Gazette, N. H., Northern Star, Rhode Island, Lincoln Telegraph, &c. New York Evening Signal, &c. &c. must assure the afflicted that they possess wonderful merits.

They **ARE THE STRONGEST, STURGIEST AND VIVID** of all tonics, **PERFECTLY AND VIVID** in action, promote the peristaltic action, cleanse the stomach and bowels from unhealthy accumulations, and purify and enliven the blood in the most thorough and effectual manner.

They are the most certain remedy for all those prevalent diseases called Dyspepsia, Jaundice, Liver Complaints, Heartburn, Bixiness, Headache, Wandring or Stomach, Sinking Faintness, Sour Stomach, Loss of Appetite, Weakness of the Limbs, Nervous Debility, Costiveness, Piles, and all diseases caused by an unhealthy state of the stomach and bowels.

They are the unrivaled and efficacious compound of **REGULAR PHYSICIAN'S** and Graduate of the **NEW HAMPSHIRE MEDICAL COLLEGE**, who has made the study of Medicine his profession.

Being composed entirely of vegetables, they are of such a nature that they may be taken for any length of time by invalids of any age, without injuring the system or exposing it to take cold.

BE CAREFUL OF WHOM YOU PURCHASE!

In consequence of the present stamp of imposition, they have been at great expense in fitting new directions and wrappers, and in future the Bitters will be done up in a different style. See that the envelope has on it my name in full, "Established in the Clerk's Office of the District Court of Massachusetts," and on the other side, "Established at South Portland, 1839, by S. O. Richardson, M. D., in the Clerk's Office of the District Court of Massachusetts," and on white paper, is so curiously engraved that the words "Dr. S. O. Richardson's Sherry Wine Bitters" present themselves in a thousand different forms. As a copy right has been granted to me.

ARE RARE COUNTERFEITS.

As some are base enough to fill the empty bottles with their stuff, and thus deceive the unwary, and some have attempted an imitation of my Bitters.

BE CAREFUL OF WHOM YOU PURCHASE!

DO NOT ALLOW THEM TO SELL MY MEDICINES.

And all Bitters, put up in phial and small round bottles, purporting to be mine.

TO COUNTERFEIT WHICH IS FUGITIVE.

AS YOU VALUE YOUR LIFE, BE CAREFUL!

Orders from Agents, merchants, druggists, apothecaries and dealers in medicines, will be punctually attended to, and sent to any part of the country, safely packed in boxes.

A liberal discount will be allowed on the sale.

For sale, wholesale and retail, at the Doctor's Office, 13 Hanover Street, Boston, and in most Towns throughout the New-England States.

Price 75 cts. per bottle, 50 cts. per paper. C. F. Price by Allen Marden & Co., George W. Holden, G. W. Ladd, Whittemore & Guern, Benjamin Plummer, May 4, 1841.

FURNITURE, CHAIR & FEATHER STORE.

NOTICE.

The Whig Electors of the Representative Class convened at Orrington, Ellington and Madison Gore, are requested to meet at the Town House in Brewer, on Saturday the 14th day of September next, at two o'clock, P. M., to nominate a candidate to be supported for Representative for said Class. Particulars of the Orrington and Ellington Town Committees.

August 16th, 1841.

NOTICE.

The Whigs of Bangor and Bradley, will meet at the Town House, in Brewer, on Saturday, the 14th day of September next, at 4 o'clock P. M., for the purpose of nominating some suitable person to be supported as candidate to represent said Class in the next Legislature of this State.

A general attendance of the Whigs of both towns is particularly requested. Per order of the Class Committee.

Aug. 21, 1841.

DEMOCRATIC CONVENTION.

The Whigs in the Representative District, composed of the towns of Millford, Greenbush, Passadumkeag, Ellington, Pownal, Ledge, Argyle and Argyle Plantations, are requested to meet in Convention by their Delegates, at John Butterfield's Tavern, in Millford, on Tuesday the seventh day of September next, at 11 o'clock A. M., for the purpose of selecting a candidate for Representative to represent them in the next Legislature.

Aug. 16, 1841.

GRAND RALLY!

The Whigs of Bangor are requested by the officers to assemble at the City Hall, THIS EVENING, to consult upon the public good, and to make suitable preparation for the approaching election.

Rouse up! Friends of Liberty! A mad, reckless opposition is waged against our Republican government and every man should be at his post. Support the Government in carrying out the wishes of a free people. All hands at the City Hall this evening.

THE LAND BILL PASSED.

We have this morning the gratifying intelligence that the Land Distribution Bill passed both Houses of Congress on Monday last, and has probably before this been signed by the President, and become a law.

This is in every respect one of the leading and most important measures of the Session;

it is one, too, exclusively Whig in its origin

and support, and we are sure that our friends throughout the land that there can yet honor and high patriotism enough be in Congress to set at naught the efforts of our enemies and the treachery of pretended friends, and triumphant by this most important bill.

BOUNDARY MOVEMENTS.

The unceasing labors of Gov. Kent in getting the United States Government to engage with vigor in the employment of U. S. troops to defend the territory of Maine, has greatly increased the confidence of the people in the administration of this State and of the General Government. All who desire as a matter of principle that the Boundary question should be speedily and honorably settled are filled with joy, while those very measures tending directly to this end, occasions downright opposition from the logo-fooc leaders and demagogues, who wish to keep this an open matter of contention until he gets into power.

The straightforward common sense and forcible arguments of Edward Kent, have accomplished more than all the vaporings of logo-fooc leaders could do in a century. He has aroused the General Government to the importance of our Boundary question, and we may expect that the troops of the United States will before long be in the occupancy of the forts erected by the British at Tamscoa Lake.

The heat and burden of this matter is no longer resting upon the shoulders of the State. It is now where it belongs, upon the broad shoulders of the United States. Why then in the name of common sense should the logo-fooc leaders oppose these movements? Would they have Maine again liable for the expenses of defending that territory? Are they willing to have the General Government continue to neglect this matter so important to Maine, merely that they may have the fingerings of the people a money to the tune of ten dollars a day? This may be the case, but the honest, patriotic men of their party will not go with them in this mad crusade against the best interests of the State.

Judge them by their fruits.

Mr. Melville, while he was Land Agent, was constantly drawing money from the Treasury of the State to pay the expenses of his department. Year before last he received from the State Treasury about one hundred thousand dollars, and last year between thirty and forty thousand dollars. The present Land Agent has already paid into the State Treasury TEN THOUSAND DOLLARS, and will be able to pay at least forty thousand dollars more, besides paying the expenses of his department, thus making a difference between the last year and the present, of ninety thousand dollars in favor of the State in the Land department alone.

This has always been a characteristic of the Anglo-Saxon race. Nothing like it has ever been witnessed among the French colonists. The valley of the St. Lawrence was settled by the French before New England, and yet the French settlements are hardly extended back from the intervals. It is pretty certain that had the French or the Spanish settled New England instead of the English, we should not now have had one tenth of our present population, and in all probability, New England would now have been an insignificant province.

The valley of the Aroostook is destined at no distant period to be an important part of Maine. There are nearly one hundred townships of land watered by this river, and more than that number if we include the townships on Fish river and Eagle Lakes.

Its agricultural resources are capable of supporting a population of at least 300,000, and the population above Mattawamkeag Point may be safely put at half a million the present population of the whole State.

The soil looks richer here than any I have seen elsewhere in the State. The rocks consist of what geologists call the secondary formation that is, of limestone, slate, and sand stone. It is a coal region, and there is every appearance of the anthracite, and indeed I saw frequent specimens of coal in some of the ledges on the banks of the river. A soil can hardly fail to be good where it is constantly enriched from the combustion of such ledges. Lime is abundant, and one of the largest deposits of this ore, ever found in this country was discovered here by Dr. Jackson, in 1839.

A population will soon develop these resources, and I was happy to learn that the emigration to the Aroostook this year, has far exceeded that of former years.

I find on this township, about half a dozen young men who have just come in from the County of Kennebec. They appear to be well pleased, have selected their lots, and with common industry and prudence, cannot fail in a few years to secure to the natives a competency.

Mr. Dutton, one of the settlers, informs me that last year, from half a bushel of sowing of wheat, he raised 9/100 of sheaves, and that it took three dozen of sheaves to the bushel. This was on interval land at the mouth of the Machias, and would give about 45 bushels of wheat to one bushel sown.

Mr. Cook, another settler, informed me that last year, on the upland, he sowed about nine bushels of wheat, on what he judged between nine and ten acres, and that he harvested, two hundred and thirty bushels of good wheat. Farmers need have no fears when the soil produces like this.

Yours, &c., VIATOR.

INDEPENDENCE OF THE WHIG AND COURIER.

BANGOR, Mo. 11, August 6, 1841.

Dear Sir, I have spent several days very pleasantly in this township, rambling among the new settlements and in catching trout near the mouth of the Machias, where I am told it is good fishing, almost every month in the year. From Masardis there is a ridge of excellent land running down the east side of the river about 12 miles, and extending quite across this township. The State road which is cut out and partly made, runs along over this swell of land, and settlers are beginning to make clearings through the whole distance. From Mr. Cook's residence on the top of this ridge, I had a good prospect of the adjacent country. It is an undulating region, the hills covered with a luxuriant growth of rock maple and yellow birch, and the valleys dense with heavy growth of spruce, cedar and some pine.

To the West I had a fair view of the highlands, distant about 20 miles, at the head of the Machias river, and which separate the Aroostook waters from the Allegash.

The settlers inform me that there is much good land about the head waters of the Machias, and large tracts of excellent pine timber. One of the settlers here has become disaffected with his present location, and has gone, this season, about 18 miles up the Machias and taken up a new farm, on a large interval. He says he does not wish to be crowded.

It is a singular trait in the character of many of the first settlers, that some of them always wish to keep ahead. No sooner does one begin to have a good farm, and have neighbors plenty, than he suddenly pulls up stakes and plunges anew into the forest, some twenty or thirty miles, again to take another departure.

This has always been a characteristic of the Anglo-Saxon race. Nothing like it has ever been witnessed among the French colonists.

The valley of the St. Lawrence was settled by the French before New England, and yet the French settlements are hardly extended back from the intervals. It is pretty certain that had the French or the Spanish settled New England instead of the English, we should not now have had one tenth of our present population, and in all probability, New England would now have been an insignificant province.

The valley of the Aroostook is destined at no distant period to be an important part of Maine. There are nearly one hundred townships of land watered by this river, and more than that number if we include the townships on Fish river and Eagle Lakes.

Its agricultural resources are capable of supporting a population of at least 300,000, and the population above Mattawamkeag Point may be safely put at half a million the present population of the whole State.

The soil looks richer here than any I have seen elsewhere in the State. The rocks consist of what geologists call the secondary formation that is, of limestone, slate, and sand stone. It is a coal region, and there is every appearance of the anthracite, and indeed I saw frequent specimens of coal in some of the ledges on the banks of the river. A soil can hardly fail to be good where it is constantly enriched from the combustion of such ledges. Lime is abundant, and one of the largest deposits of this ore, ever found in this country was discovered here by Dr. Jackson, in 1839.

A population will soon develop these resources, and I was happy to learn that the emigration to the Aroostook this year, has far exceeded that of former years.

I find on this township, about half a dozen young men who have just come in from the County of Kennebec. They appear to be well pleased, have selected their lots, and with common industry and prudence, cannot fail in a few years to secure to the natives a competency.

Mr. Dutton, one of the settlers, informs me that last year, from half a bushel of sowing of wheat, he raised 9/100 of sheaves, and that it took three dozen of sheaves to the bushel. This was on interval land at the mouth of the Machias, and would give about 45 bushels of wheat to one bushel sown.

Mr. Cook, another settler, informed me that last year, on the upland, he sowed about nine bushels of wheat, on what he judged between nine and ten acres, and that he harvested, two hundred and thirty bushels of good wheat. Farmers need have no fears when the soil produces like this.

Yours, &c., VIATOR.

KEEP IT BEFORE THE PEOPLE.

That Shepherd Carey, Esq. one of the logo-fooc leaders in the House of Representatives, who was an assistant quarter master in the Aroostook war, allowed and paid to Charles H. Shepherd and Wm. H. Carey, Jr., believed to be of the firm of Shepherd Carey & Co.,

two thousand three hundred and sixty-six dollars and fifty-nine cents, for the transportation of ninety five tons and twelve hundred pounds the distance of forty five miles, in good sleighing.

AND FOOL AT THIS.

Among the very articles for the transportation of which this money was paid were molasses at 75 cents a gallon; red flannel at 75 cents a yard; and axes at 27 dollars a dozen, paid by Shepherd Carey, quarter master, to Shepherd Carey & Co.

These are specimens of a vast number of charges made by agents, commissioners, contractors, all busy partisans of the Van Buren

dynasty, and all apparently intent on the great object.

THE SPOILS.

Yester evening. — The Whig and Courier, at the head of the next, had a drudge to it in either of the two musical meetings which are to be held on the 10th inst., and at Lafayette, on the same day, when it does not, they trample it under foot.

Springfield Repub.

W. CONGIGNS.

1841, BANGOR, Mo. 11, August 10th.

The resolution for the distribution of the printed returns of the last census, with the House adjourned, was concurred in.

The Land Corporation Bill, as it passed the House, was referred from the Select Committee without amendment.

The Revenue Bill was debated, the question being on an amendment offered to impose a duty of 20 per cent. on rail road iron, instead of 10 per cent.

The Land Bill was taken up, the amendments which were disagreed to by the House were read from, and the bill was passed. — Year 25.

But the House, the Land Bill was taken up, and the amendment of the Senate, that the distribution shall not take place while a duty of 20 per cent. is laid upon any article, was adopted.

To the other amendment "concurrent" was passed.

The fortification bill was taken up, and the House refused to agree to it, and the bill was referred to the Select Committee.

The new bill was taken up, and the House voted to have it referred to the Select Committee.

The new bill was taken up, and the House voted to have it referred to the Select Committee.

HAMPTON ACADEMY.

THE Fall Term will commence on Monday, Sept. 6th, under the charge of Mr. A. Mathews, A. M. There are taught in this Academy all the branches usually taught in similar institutions. Particular attention will be paid to those who intend to qualify themselves for teachers. Board, including room, washing, and lodgings from \$1.50 to \$1.50 per week. Tuition, Eng. \$3.00; French, \$1.50 per term.

JOSIAH KIDDER, Secretary.

Aug. 24. — w3w

DEXTER HIGH SCHOOL.

A HIGH SCHOOL will be commenced at Dexter, the first Monday in September, under the care of Mr. Joseph W. Weston. Instruction will be given in the Latin, Greek and French languages; in the various branches of Mathematics, in Philosophy, Rhetoric and the other studies usually pursued in High Schools. Mr. Weston pledges his best efforts to make the school profitable and pleasant to those who may attend. Tuition, three dollars per term.

Aug. 24. — w3w

EAST BREWER.

A PRIVATE SCHOOL will be commenced on Wednesday, the first day of Sept. next.

Aug. 25 and 30 etc. per week, according to the age of the children, under 14 years of age \$20 per week. Besides English studies, instruction will be given to those who wish Latin and French, at a moderate price. Board, with the convenience for study, may be reasonably obtained in families near by. Such are the moderate terms and the unwarred price, which will be taken to facilitate the progress of the school in practical knowledge. It is hoped as many youth as possible will be induced to patronize the same.

SMITH & FENNO.

DR. SEARS' Universal Singularian, OR BLOOD-ROOT PILLS.

THESE truly Vegetable Pills are eminently useful in all cases where Physic is required. They operate more effectually upon the LIVER and BILINARY DUCTS, than any ever before offered to the public. They consequently set the bile, which is the natural Physic of the system, at liberty, thus removing costiveness, curing Dyspepsia, Liver complaint, Indigestion, Dropsey, and all other diseases which depend on an impure state of the BLOOD. In point of Economy as well as efficacy, these Pills are without a rival, as the price for a Box of thirty Pills is only twenty-five cents. They are warranted to be composed of the very best materials. For Certificates of Cures and further particulars, see will of directions, which accompany each Box.

All persons who sell the genuine article will be furnished with a Certificate of Agency signed by the Proprietor, in his own hand writing.

All orders promptly attended to by DR. ASPEL.

June 1.

PROUT'S NEWLY INVENTED INDIA RUBBER STICKING PLASTER.

(WHICH DOES NOT WASH OFF.)

THIS article is very superior to the 1838 Court Plaster, inasmuch as washing does not affect it. It sticks firmly and close for several days, and is so flexible that it lasts well on a joint, and in cases where the old plaster would be less. Made by THOMAS PROUT, 229, Street, London. For sale by D. BUGBEE, Stationer.
